

CAMPBELL RIVER SKETCHES

Mark Williams

Alfred Publishing, 1991

Campbell River Sketches is a dramatic work inspired by the beauty of the Campbell River in British Columbia. It features two contrasting themes that will really excite your maturing players. The first movement, Ballad, is a lyrical piece in the British folk song style. The second movement, March, is in 6/8 time. It opens with an accented, syncopated rhythmic motif that reoccurs throughout the work.
